

**Amendments to the Specification:**

Please delete paragraph [0025].

Please replace paragraphs [0012] through [0024] with the following amended paragraphs:

- [0012] Figure 1 is a perspective view of a belt sander mounted in a frame according to the present invention.
- [0013] Figure 2 is an alternative perspective view of a belt sander mounted in a close up perspective view of elements of the hinge structure of the frame of Figure 1.
- [0014] Figure 3 is a top perspective view of a belt sander mounted in the frame of Figure 1 the hinge structure of Figure 2 including additional elements.
- [0015] Figure 4 is a perspective view of a belt sander mounted in the frame of Figure 1 converted into a stand of the hinge structure of Figure 3 including still additional elements.
- [0016] Figure 5 is a side perspective view of a belt sander mounted in a portion of the stand frame of Figure [[4]] 1.
- [0017] Figure 6 is a right side perspective view of a belt sander mounted in the stand frame of Figure 1 4 in an alternative orientation.
- [0018] Figure 7 is an alternative perspective view of the belt sander and stand frame of Figure 6.
- [0019] Figure 8 is a left side perspective view of the belt sander and frame of Figure [[1]] 6.
- [0020] Figure 9 is an alternative a close up perspective view of the depth-of-cut mechanism of the sander frame of Figure [[8]] 1.
- [0021] Figure 10 is a close-up underside perspective view of the depth-of-cut mechanism of the sander frame of Figure 9 of a belt sander mounted in the frame of Figure 1 when converted into an inversion stand in the vertical orientation.
- [0022] Figure 11 is a close-up side perspective view of the belt sander mounted in the inversion stand of Figure 10 with some elements of the depth-of-cut mechanism shown in see-through/phantom.

[0023] ~~Figure 12 is a further close up of one hinge of the depth of cut mechanism of underside perspective view of a belt sander mounted in the frame of Figure 1[[1]] when converted into an inversion stand in the horizontal orientation.~~

[0024] ~~Figure 13 is the same view as Figure 12 without the see through phantoming a top perspective view of the belt sander mounted in the horizontal inversion stand of Figure 12.~~
